

In response to your letter dated December 6, 2007 regarding the Amended 30 Day Post-General report please note that the committee has determined that certian low dollar contributions had been counted multiple times. The errors had been reversed in the system but had appeared to be unitemized disbursements on the FEC report. We have corrected the files and reported each contribution only once. The Committee will file all necessary amendments today to correct the cash on hand.

Please contact me with any further questions or concerns. Thank you.
